

Be Green and Raise \$Green\$

Bring in empty inkjet cartridges and used cell phones.
Get them from home, businesses, friends, and family!

Toners are now being accepted. They must be ORIGINAL
(not remanufactured) toners of the following brands:

7 Ways to Get Every Single Last Drop from Your Gas Tank

- 1 – Lighten the load: clear out the trunk and remove the luggage rack. Carry only what you need.
- 2 – Coast: you don't always need to be pressing the gas. Coast when you can.
- 3 – Green means slow-go: accelerate slowly to your desired speed. This saves the most!
- 4 – Air up: keep your tires properly inflated. Make it easy on yourself: buy a simple tire gauge and learn how to put air in the tires if you don't already know how.
- 5 – Put it in neutral: if you're stopped for a period of time – in the carpool line, at a railroad crossing – put it in neutral. It reduces transmission strain and cools it off. Better yet, turn the car off if you're going to be stopped longer than 1 minute.
- 6 – Errand Day: don't go to the post office today, the grocery tomorrow, the bank the next day... Do your errands in one day. You'll also feel like you've accomplished more!
- 7 – Air it out: roll the windows down for low speeds and use the A/C for high speeds.
